3 It is not known what the Sanitary Comm^r means by " after the question has been dealt with in all its administrative aspects." Surely this cannot mean after the Sites have been approved by the Rev Officers, and proceedings initiated to acquire them for it may just happen, that the Site may be Condemn by the D^t Sanitary officer, and all labour would then be wasted. I think the stage at which the Sanitary authority may most profitably be Consulted is after the Shifting is decided upon & befor proceedings are undertaken for the acquisition of a site

4 To avoid unnecessary Correspondence & delay, I think Sub D^n officers who generally will have and who generally are appt^d ~~Land acqn~~ Offrs seen the Sites, may be authorised to address D^t Sanitary officers direct in such matters. This is the practice in some Districts The passing of the Correspondence thro' the Dy C^mr may is merely a formal matter & may be dispensed with

5. But it is not only with reference to Consultation with the Taluk Authorities that there is diversity of practice. With regard to the proceedings themselves there is no uniformity and definiteness. Often times a good lot of time & energy is wasted in the hearing of parties & recording of Statements by Shekdars & Amildars — functions more properly devolving on the Asstt: Comr or other acquisition officer. Another abuse that exists in some places is to deal with such records, not as a regular case requiring a formal enquiry but as matter which could be disposed of by correspondence". The papers in this way keep going up & down between the Shekdar, Amildar, Sub Dl officer & Dy Comrs without reaching finality for a decade very long time I know of cases in which such records were pending for 4 & 5 years & even more

Considering the importance of the subject, it appears very necessary to frame rules prescribing definitely the powers & duties of each Revenue offi-

who has to deal with a Village Examination record, so as to avoid delay and duplicity of work as far as possible (2) the stage at which the Santal Authority should be Consulted & by defining the officer by whom the Consultation can be made: ~~If possible~~ It may also be useful (2) to issue a set of instructions as to the points to be observed in making selection of Village Sites, so that even in Cases in which the Sites are ~~not~~ selected by ~~Sanitary~~ the Revenue Authorities no mistakes may be ~~made~~ Committed.

As however this is a subject which intimately concerns the Rev Deptt: the file will be forwarded to Br I for remarks and suggestions (Br I)

Sanction the appropriation of Gamal land upto 50 acres can be sanctioned by the Rev: Commr & that of Kharab lands by Dy Commr In any case the necessity either for an extension of the existing village site, or for the formation of a new site, has to be established before the lands required to be are Selected, and the Amildar is the best judge of the Situation When the necessity is established, the next Step is to Select lands the Suitability of which for the intended purpose has to be certified by the Dt Sanitary Off only in cases where the number of houses proposed to be built is more than 50. Therefore the proper Stage at which the Dt Sanitary Officer can be consulted, is before the lands are actually Selected and proposals are Sent up to the higher authorities —

General Department, Bangalore.

Sir,

I have the honor to state that Government Order No. 6623-34 Sany. 94-12-6 dated the 1st March 1913, read with para 5 of the preamble, suggests that cases requiring the opinion of the sanitary authority in regard to the suitability of village-sites should be referred to the District Sanitary Officer by the Deputy Commissioner of the District, I find however, that in actual practice no uniformity is being observed in regard to this matter. In many cases the Sub Division Officers and in not a few instances the Amildars consult the District Sanitary Officer direct even before the submission of the question to the Deputy Commissioner. As this procedure is apparently not intended by the Government Order and besides, is likely to entail a considerable amount of avoidable itineration by the District Sanitary Officers, I request that specific instructions regulating the procedure may be laid down by Government. In my opinion, the stage at which the sanitary authority can most advantageously be consulted is when the case has been dealt with in all its adminis-
